

The big list is a list of conversational Bahtssal phrases gathered from interviews and classes with Elder Nelson Hopper. As we have progressed through the months we have tried to standardize the spelling and the way we write the language. But an unfamiliar ear does not always produce textually the sounds as faithfully as audio or videotape. We acknowledge that there may be errors here, both in reproduction and in content but we continue to attempt to reproduce the language as faithfully as possible under the circumstances. James BlueWolf ANA Language Coordinator

The Big List /Updated Phrases for Home

8--9--04
